Summary

Focusing on Frontend Web Development .

Cause I want to build user-friendly Web applications.

MERN Stack and React Native are future plans .

Joined the Web community since 2019 and happily built Modern Web App with React.js and Next.js . Also Learned PHP , SQL , and JAVA from METRO IT & Japanese Language Centre.

I think I like Small Screen(Mobile) more than Large Screen(Desktop) . I have built a Mobile First Approach Web App with React , Next.js and Firebase . And I love it .
